#### SEEDS FROM DESIRABLE DAHLIAS

One of the greatest thrills in growing dahlias is trying to get a "World Beater" from seed. This is not easy but it may come from only a few seeds. Try your luck with a few seeds this season.

#### HERE IS A TIP

Use Vermiculite as a low cost, easy to work, foundation material for all your floral arrangements. Retains water without spilling. Keeps flowers alive-looking longer. A few cents worth is all it takes. Use it over and over. See prices on page ?????

#### JOIN YOUR LOCAL DAHLIA SOCIETY

If you grow more than ten hills of dahlias you will get a lot of pleasure and profit from your local Dahlia Society. The dues are small, the benefits great, and the pleasure of "talking it over" with other fans more than compensates for the time.

#### ROOTS ONLY are offered in this catalogue.

Our stock is all root grown, so there is no chance to get over propagated stock from us. Many a good dahlia gets a set back from being over propagated. This we know from sad experience.
